Allowed Claims: 11-90.

***Reasons for Allowance/Examiner's Comments***

**Reasons for Allowance**

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103. Specifically, with reference to independent claims 11-18, none of the prior art either alone or in combination disclose or teach of the claimed image optical system having the first and second optical systems as claimed, the first and second reference axis located as claimed, and specifically including, as the distinguishing feature in combination with the other limitations, the satisfaction of the set forth conditions.

**Examiner's Comments**

The drawings are objected to because Figures 24-46 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Omura, Sugawara, and Toide et al are being cited herein to show image optical systems having some similar structure to that of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
